The following evaluation factors and weights will be used to rate each proposal. The rating committee or their appointed agent will: (1) review all proposals and identify the proposals of responsible offerers reasonably susceptible of being selected for award; (2) send written notice to each firm not judged “reasonably susceptible of being selected for award”, notifying them of the reason or reasons the proposal is not being further evaluated; (3) After careful review of the proposal and supporting information, assign a rating from 1 to 10 for each factor and then multiply the factor weight by the rating to determine the numerical value of each factor. The numerical value of the evaluation factors will be totaled to achieve the total rating of each Proposal.

The Owner reserves the right to reject any and all proposals and to waive technicalities and formalities, and to award the contract in the best interest of the Owner. The Owner will evaluate each proposal and make a final rating of the evaluation factors and make a contract award decision prior to disclosing the contents of the proposals.

The contract award will be made by the Owner based on the evaluation factors. The factors are as follows:

- 1. Cost Proposal.**  
The Owner will rate the cost proposals numerically. Those that are within the Owner’s budget will be evaluated in accordance with the selection criteria. Those that exceed the Owner’s budget may be judged, “not reasonably susceptible of being selected for award” and may not be evaluated further. If during the evaluation of cost proposals, errors are found or questions arise relative to the ability of the Contractor to profitably complete the job, a relatively low cost proposal may receive a low score rather than a high score. Otherwise, the lowest cost proposal will receive the highest rating and the highest cost the lowest rating.
- 2. Experience in completing similar projects in the past three (3) years.**  
Please prepare a list of at least **three (3)** government contracts of re-roofing work of similar scope completed by the proposed construction team. If team does not have this specific experience, list **three (3)** most similar projects. Proposed construction team is hereby defined as a minimum the

contractor who submits the proposal and all subcontractors. The project team also includes project manager and on-site superintendent of the contractor. The proposal form includes a list of the project team for guidance. Failure of the proposer to demonstrate project team experience on **three (3)** similar projects may result in the proposer being judged “not reasonably susceptible of being selected for award”. Please include the name of the project, name, telephone number, fax number and e-mail of the representative of the architect or engineer in charge of construction contract administration; and name, telephone number, fax number and e-mail of the representative of the Owner. Also include a general description of the work performed and the cost of each project.

3. **Demonstrated Ability to meet project schedule.**

As part of the “Demonstrated Ability to meet this Project Schedule” the proposers should include a detailed Project Schedule which clearly shows the steps necessary to accomplish the substantial completion on schedule. This schedule should accompany the Proposal form. Substantial completion is to be achieved on or before **July 31, 2019**. If this schedule cannot be met, please give date it can be completed as soon as possible in your schedule. Notice to Proceed will be given on April 15, 2018. From April 15, 2019 to May 28, 2019 contractor can process shop drawings, order materials and set up site.

4. **Participation by local suppliers, subcontractors, laborers and tradesmen.**

The Owner is seeking maximum participation of local suppliers, subcontractors, laborers and tradesmen. As set forth on the proposal form, submit a list of all suppliers, subcontractors, laborers and tradesmen that you propose to use who are residents of Brantley County or who have had a business license in Brantley County for at least **three (3)** consecutive calendar years.

In addition, submit a list of the local suppliers and subcontractors from whom you received quotations for the project and the amount of their quotations in the context of other competing quotations for the work.

During the negotiations, we will calculate the dollar value of the labor, materials, subcontracts and services to be purchased in Brantley County. A rating of 10 will be given to the firm proposing the largest dollar value of Brantley County purchases. A rating of 0 will be given as the point of beginning for no Brantley County purchases. Ratings between 0 and 10 will be given to firms proposing some Brantley County purchases prorated from 0 to 10 based on the relative value of Brantley County purchases as compared to other proposers.
